9 September 2021

Rt. Hon. Speaker of Parliament,
Republic of Uganda, Kampala

Dear Rt. Hon. Speaker,

RE: PETITION TO STOP THE DESTRUCTION OF BUGOMA CENTRAL FOREST RESERVE

The above refers

The over 20,000 undersigned signatories and others not included due to space take this opportunity to thank you as the Speaker of Parliament of Uganda for the great legislative and oversight work that the Parliament under your leadership has continued to support social and economic transformation of our country. In particular, we thank you for the efforts against environmental and human rights abuses in the country.

The undersigned signatories are local people, their leaders and partners from over 30 Bugoma forest host villages/lower Local Councils (LC1 and LC2) from the districts of Kikuube and Hoima. As local communities, we live and survive on the natural environment.

This is why we are writing to you today to express the concerns of over 50,000 local people including children, women, elderly, youth and others who live in Kikuube and Hoima districts local communities bordering Bugoma forest. We appeal to you as the Speaker of Parliament and the entire Parliament to use your oversight powers to immediately stop the ongoing destruction of Bugoma forest. This is important to save the lives of local communities and conserve our natural heritage.

Bugoma forest is one of the few remaining iconic symbols of our life, the life of our children and the children of our children and therefore it should be conserved and protected from the on-going land grabbing and destruction.

This petition serves to inform you that Bugoma forest, located in Kikuube district, Bunyoro Kitara Kingdom is being exterminated by Hoima Sugar Ltd facilitated by commissions and ommissions of several actors including Ministry of Lands, Housing and Urban Development (MLHUD), National Environmental Management Authority (NEMA), National Forestry Authority (NFA), the Judiciary, the Uganda Peoples Defense Forces (UPDF), the Uganda Police Force (UPF), the National Physical Planning Bord, Kikuube district physical planning committee and others.

Hoima Sugar Ltd is destroying Bugoma forest with impunity based on illegal land titles and Environment and Social Impact Assessment (ESIA) certificates of approval. They are also violating the Kikube district physical plan 2020-2040 and others. It is very unfortunate that the ongoing Hoima Sugar Ltd's illegal activities in Bugoma forest are being protected by UPDF and other government agencies.

Our lives are in danger and we appeal to you to save us. Bugoma forest is our main critical biodiversity resource that enables our area to get enough rainfall for agriculture as a source of our food and income, local medicine and other environmental, social and economic values. This is why we are calling upon Parliament to use its oversight powers to protect and conserve Bugoma forest at all costs.

We also fear that Bugoma forest land grabbers including Hoima Sugar Ltd will annex our own private land after they are done with the forest since the leasehold and freehold titles issued by the government to Hoima Sugar Ltd and Bunyoro Kitara Kingdom have no clear boundaries. Indeed, it is unfortunate that the MLHUD issued a freehold title and leasehold title to Bunyoro Kitara Kingdom (BKK) and Hoima Sugar Ltd respectively, NEMA issued an ESIA certificate of approval to Hoima Sugar Ltd to destroy part of Bugoma forest before the opening of the boundaries of Bugoma forest. No one knows the boundaries of Bugoma forest.

Further, Hoima Sugar Ltd is currently cutting down Bugoma forest without any approval from Kikuube district physical planning Committee. This is in violation of the 2010 Physical Planning Act as amended as well the ESIA certificate of approval issued by NEMA. Unfortunately, both the National Physical Planning Bord and the Kikuube District Planning Committee have failed or ignored to stop Hoima Sugar Ltd's ongoing illegal activities at the expense of Bugoma forest and surrounding communities.

The judicairy has also failed our efforts to get just for Bugoma forest due to inodinate delays in hearing our cases. Justice delayed is justice denied. Hoima Sugar Ltd has taken advantage of court delays to continue destroying the forest.

The undersigned signatories therefore write this petition to request you to use your oversight powers to stop the destruction of Bugoma forest. Hold accountable all the relevant institutions whose commissions or ommissions have lead to the destruction of Bugoma forest.

Objective of the petition

The main objective of this petition is to request Parliament to use its oversight powers to stop the on-going destruction of Bugoma forest by Hoima Sugar Ltd and other land grabbers.
Below we present the summary of the petition:

1. **Threats to Bugoma Forest**

We note with concern that amidst the uncertainty of oil challenges in the Albertine Graben that has opened roads and attracted all kinds of people including land grabbers to Bunyoro, Bugoma forest is being traded and destroyed for sugarcane growing and other corrupt interests. As local communities and partners working to **Save Bugoma Forest**, we appeal to you to stop this evil. To date, Hoima Sugar Ltd has already destroyed over 900 hectares of Bugoma forest's approximately 41,000 hectares.

We believe that Parliament as the representative of all Ugandans is only institution that can save Bugoma forest the destruction for the common good and equitable transformation of region and the country at large.

(a) **Destruction of the forest for sugarcane:** We are concerned that through corruption and other illegal actions, Hoima Sugar Ltd has been given ago ahead to destroy 22 squire miles of Bugoma forest and todate, it has already destroyed over 900 hectares. Hoima SugarLtd's activities were approved by NEMA in violation of national laws.

(b) **NEMA's ESIA certificate of approval to Hoima Sugar Ltd:** Hoima Sugar Ltd is basing on the NEMA's ESIA certificate of approval to continue destroying Bugoma forest. NEMA issued the said certificate in violation of all laws that govern ESIA processes. Both NEMA and Hoima Sugar Ltd never consulted stakeholders contrary to ESIA laws. NEMA's actions explain why our country is suffering from endemic environmental destruction. NEMA also approved a sugarcane project in an area reserved for forest as per the Kikube district physical plan 2020-2040. This means that NEMA aided and abetted a crime.

(c) **Hoima Sugar Ltd operating in Bugoma forest without an approved plan**: It is absurd that both the National Physical Planning Board and Kikube district physical planning committee plus NEMA have remained silent at a time when Hoima Sugar Ltd is destroying Bugoma forest in violation of the national laws including the Physical Planning Act 2010 as amended, the National Environmental Act 2019, the 1998 EIA regulations and others. Hoima Sugar's activities in Bugoma forest are taking place in an area reserved for foresty as per the Kikube district physical plan 2020-2040. Yet, the National Physical Planning Board and the Kikube district physical committee have failed and or ignored to prevail over Hoima Sugar Ltd and stop its illegal activities.

(d) **Violation of the NEMA's ESIA certificate of approval**: While the certificate issued by NEMA to Hoima Sugar Ltd requires the developer to acquire a development permit before commencement of the project, Hoima Sugar Ltd entered and started cutting down the forest for sugarcane without any development from Kikube district. This violation entitles NEMA to cancel the said certificate of approval. Unfortunately, NEMA is corrupt and therefore cannot enforce its own contiditions. On its part, Kikube dstrict remains helpless. They were never consulted by the developer and NEMA also ignored their submissions.

(e) **UPDF guarding Hoima Sugar Ltd to destroy the forest:** It is unfortunate that the national army (UPDF) has continued to protect Hoima Sugar Ltd's illegal activities in Bugoma forest and and this has led to destruction of over 900 hectares of Bugoma forest.

(f) **Abuse of communities:** Hoima Sugar Ltd together with its workers and security groups are abusing local communities who live around the forest. Since the commencement of Hoima Sugar Ltd's activities in Bugoma forest, women have been raped, people including local leaders and journalists assaulted; communities denied access to the forest to get local herbs and others. The people in our communities are living in fear for their lives and land garabbing because of Hoima Sugar Ltd's activities in our area.

(g) **Risks of Covid 19 to communities:** It is unfortunate that while the local communities have been following the presidential directives and the Ministry of Health guidelines to stop the spread of Covid 19, Hoima Sugar Ltd and its workers from outside the area have continued to move around the communities. This has led to increased Covid 19 cases in our villages.

(h) **Using the lockdown to increase destruction of Bugoma forest:** It is also regrettable that while Ugandans are staying home to stop the spread of the Covid 19 pandemic, Hoima Sugar Ltd is using the cover of lock down to increase the destruction of the forest. We see many lorries entering and coming out of the forest every day carrying hundreds of illegal sacks of charcoal and timber.

It should be noted that converting Bugoma forest into a sugarcane plantation among other land uses that are not compatible with forest conservation is not only illegal but a danger to the environment and to humanity. It undermines the efforts to promote conservation and improve livelihoods at a time when the country is facing challenges of climate change impacts.

Our appeal

Through this petition, we are calling upon Parliament to do the following:

(i) **Stop the destruction of Bugoma forest:** Use your oversight powers to engage government to immediately halt Hoima Sugar Ltd and other land grabber's activities in Bugoma forest. Hoima Sugar Ltd is operating without a development permit from Kikuube district and this is enough ground to stop its activities. The activities are also against the Kikuube district physical plan 2020-2040.

(ii) **Open boundaries of Bugoma forest:** Direct the MLHUD, MWE, NEMA and NFA to urgently commission an independent survey to open the boundaries of Bugoma forest. The survey should be independent to avoid corrupt government officials conniving with land grabbers and declaring the leased land to Hoima Sugar Ltd as land outside the Bugoma forest. The survey should establish the availability of the over 41,000 hectares of Bugoma forest land.

(iii) **Investigate corruption and connivance in the give-away of part of Bugoma forest:** Parliament should investigate how the 22 square miles of Bugoma forest land were given away to Hoima Sugar Ltd for sugarcane growing. Why is UPDF protecting Hoima Sugar Ltd's illegal activities in Bugoma forest? Why NFA cases in the court of appeal are not being prosecuted? Why did government issue a freehold title and a leasehold title before opening the boundaries of Bugoma forest? Why did the ministry of land officers testify in court in favour of Hoima Sugar Ltd against NFA? Why did NEMA issue an ESIA certificate of approval to Hoima Sugar Ltd before public consultations? How did Hoima Sugar Ltd get a lease of 22 Squire Miles in a record time of 3 days?

(iv) **Suspend all suspected corrupt government officials:** Use your oversight powers to pressure government to suspend all government officials including the Commissioner for Surveys and Mapping-MLHUD, the Executive Director of NEMA and other suspects whose ommissions and commissions are facilitating the land grabbing and destruction of Bugoma forest. The suspension should stay in force until the investigations are concluded.

(v) **Government should use its powers of compulsory land acquisition under Article 26 of the Constitution to save Bugoma forest and its catchment areas from land grabbers:** Use your oversight powers to put pressure on the central government to use its constitutional powers of compulsory land acquisition to save Bugoma forest from Hoima Sugar Ltd and other land grabbers' destruction. Bugoma forest is a common good and if the only way to save it from destruction is to compensate the land grabbers, the government should do it for the sake of Ugandans.

Compusory acquisition of Bugoma forest's 22 squire miles given to Hoima Sugar Ltd should be done as a last resort to safeguard and protect the country's natural heritage. We are mindful that the practice of compensating people who grab land in the country is part of corruption and as such, it should be discouraged.

Conclusion

Once again, we thank you for the continued good legislative and oversight work you are doing for our country. We pray that you will do everything to save Bugoma forest.
